

4. Consent Agenda (Action – Attachment)

Summary of Issues: The City of Clayton is requesting the CCTA to amend the 2009 Measure J Strategic Plan to reprogram \$291,000 (escalated \$s) in Measure J funding from its Pine Hollow project in FY10 to a segment of the Marsh Creek Road Upgrade project to be constructed in FY11. In addition, \$120,000 in Measure J funds for the Marsh Creek Road project is requested to be reprogrammed from FY13 to FY11.

Recommendation: The TAC recommends approval of this request.

Financial Implications: Please note that any funds not used for the reprogrammed project are to be returned to the original Marsh Creek Road Upgrade Project programmed for FY13. No TRANSPAC or other jurisdictions/agencies are impacted by this programming revision.

Options: Do not approve this reprogramming request.

Attachments: The City of Clayton request is detailed in the attached letter and Strategic Plan Fact Sheet. For convenience, the 2004 and escalated Program of Projects charts from CCTA's 2009 Strategic Plan have been attached. (see *s)

RE: Request for Strategic Plan Amendment

Dear Ms. Neustadter:

CCTA's 2009 Measure J Strategic Plan programmed \$291,000 in FY10 for our Pine Hollow Road Widening Project and \$1,207,000 in FY13 for our Marsh Creek Road Upgrade Project. The City of Clayton had previously intended to perform an overlay of the two-lane, deteriorating portion of Marsh Creek Road (referred to as "Marsh Creek Road (Old)" to differentiate it from the four-lane portion of Marsh Creek Road) using Federal Stimulus II funds that were never appropriated. Due to the continually worsening pavement conditions on the "Marsh Creek Road (Old)" section, the City has identified this as a higher priority than the Pine Hollow Road Widening Project at this time.

With this in mind, the City of Clayton requests that CCTA approve a Strategic Plan Amendment to delete the Measure J funding for the Pine Hollow Road Widening Project and transfer all of the programmed Measure J funds to a new project, the Marsh Creek Road (Old) Overlay Project (CIP Project 10416) to be constructed in FY11. Because the City had expected to receive Federal funds for this project, construction plans and specifications are already approximately 85% complete at this time. The City understands that all work invoiced prior to approval of a Measure J appropriation will not be eligible for reimbursement.

Our construction estimate for the Marsh Creek Road (Old) Overlay Project is \$411,000. In order to make up the difference between the estimated construction cost and our programmed FY10 Measure J funds, the City of Clayton is simultaneously requesting amending the amount of programmed dollars by moving \$120,000 from our FY13 programmed Measure J funds. It is understood that, in the event of unexpected construction savings, all unused funds will be returned to the FY13 Marsh Creek Road Upgrade Project account.

The project funding is summarized as follows:

<u>Funding Sources</u>	
Measure J	\$411,000
Local	<u>\$ 19,300</u>
Total	\$430,300

June 15, 2010
Ms. Barbara Neustadter

Old Marsh Creek Road Overlay

Project Number

24029

Project Sponsor

City of Clayton

Project Type

- Transit
- Highway
- Local Streets
-  Major Arterial
- Bike/Pedestrian
- Other

Project Scope

Two inch thick asphalt overlay with fabric and restriping.

Funding Sources (\$ in million)

Total	0.4
Measure J Transportation Sales Tax ¹	0.4

¹Measure J funds shown in escalated dollars. Actual commitment is in 2004 dollars as shown in Appendix A.

Old Marsh Creek Road Overlay (cont.)

Need/Purpose

Important minor arterial and bus route that is suffering from age and traffic.

Possible Segmentation

N/A

Issues

None.

Current Status

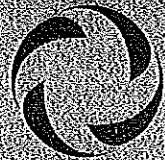

Design is approximately 90% complete.
